RIGHTS AND RESPONSIBILITIES – CODE OF RIGHTS

1. Each student has a right to an education.
2. Each student has the right to utilize school facilities and programs according to established school regulations and procedures.
3. Each student has the right to expect courteous behavior from other students and school personnel, including freedom from verbal abuse, harassment, or intimidation.
4. Each student has the right to form, hold, and express opinions and beliefs so long as the expression does not disrupt the normal operation of school.
5. Each student has the right to hold property free from theft or damage.
6. Each student has the right to determine his or her own dress, so long as it is not distracting, inappropriate, indecent, or in other ways contrary to school policy.
7. Each student has the right to seek and obtain help from school staff members regarding such issues as personal problems, drugs, or alcohol.
8. The student body has the right to establish an elected student government.
9. Each student has the right to have access to all of the rules to which he/she is subject.
10. Each student has the right to due process in the application of the "Code of Student Rights and Responsibilities."
11. When a Germantown High School student reaches the age of majority, full adult status will be granted following parental contact with a school administrator. Adult status does not alter the student's responsibility toward school rules and regulations.
12. Each student has the right to confidentiality concerning his/her records. He/she, along with his/her parent/guardian has the right to inspect his/her records in accordance with state law.

STUDENT RESPONSIBILITIES

Students have the responsibility to seek the maximum benefits from the educational process, to respect the rights of all persons who become a part of the educational environment, and to exercise the highest degree of self-discipline in observing and adhering to adopted rules and regulations. Responsibility accompanies every right. It is impossible to list all student responsibilities, but it must be emphasized that lack of responsibility means a weakening of rights. Therefore, the list of rights above shall not be constructed to deny or limit other rights retained by students in their capacity as members of the student body or as citizens. Proper behavior of students is the responsibility of both the students and their parents. Students must contribute to an environment of good citizenship and positive human relations in all aspects of the school program.

PARENT RESPONSIBILITIES

The ultimate responsibility for children’s behavior rests with parents. The following are among their specific responsibilities:

1. Comply with Wisconsin statutes in seeing that students attend school every day and notifying the school of legal absences **via phone and a parent note**, according to school attendance procedures, **within 48 hours**.
2. Support the school in requiring students to observe all school rules and regulations and accepting responsibility for any willful misbehavior.
3. Send students to school with proper attention having been given to health, personal cleanliness, neatness, and appropriateness of dress.
4. Maintain an active interest in students’ daily work. Make it possible for them to complete assigned homework, particularly by providing a quiet place and suitable conditions for study.
5. Comply with the school’s requests. This includes carefully reading all communications and returning them as requested.
6. Cooperate with the school in attending parent/staff conferences set up for exchanging information on the student’s progress.

******* CLIMATE OF RESPECT *******

A PLEDGE TO PROMOTE NON-VIOLENCE

WHEN I BECOME ANGRY WITH ANOTHER PERSON, I WILL:

1. Try to remain as calm as possible.
2. Refrain from confronting that individual without an adult or peer mediator present.
3. Refrain from using any physical force.
4. Refrain from using any foul or profane language.
5. Notify school staff including teachers, school counselors, or principals.

RESPECT POLICY

Respect is the cornerstone of all our interactions and behaviors. We acknowledge the dignity and worth of one another and strive never to diminish another by our conduct or our attitude. We must acknowledge diversity and build community by practicing civility and respect.

Germantown High School is an academic community which dedicates itself to the safety and well-being of its citizens and which recognizes that human dignity is the basis for all our relationships and growth. All citizens of our Community are involved in the continual maintenance and support of our respect policy. Because we encourage and promote self-respect, our expectations are that all will learn from and be an active participant in this policy.

In order to protect and enforce this policy, we establish the following:

Putting a Stop to Disrespect:

1. **Step One:** When you witness behavior that is in violation of the Respect Policy, ***tell the person to stop. Apathy, silence or laughter encourages the abuse and further disrespects the victims.*** Inform an adult in school and your parents.
2. **Step Two:** If the behavior doesn't stop, contact a principal as soon as possible to initiate a complaint. Be certain that the facts are documented thoroughly by the adult listening to you.
3. **Step Three:** If the behavior continues, keep a journal of further incidents, including description, time, date, place and witnesses. Keep your parents and administrators informed.

DEFINITION OF MISCONDUCT: Any physical, spoken or written act of abuse, violence, harassment, intimidation, extortion, the use of vulgarity, cursing, making remarks of a personally destructive nature toward any other person, and any restriction or prevention of free movement of an individual. This prohibition applies whether the act is deliberate, intentional or unintentional or is directed toward an individual or group regarding race, color, creed, national origin, sex, sexual orientation or mental disability, political or religious ideology. Federal law and Wisconsin state rules and regulations will apply.

CORRECTIVE ACTION: (any or all of the following may apply):

- * Conference with student, parent notification, possible disciplinary action
- * Short or long-term suspension
- * Expulsion
- * Police may be contacted; charges may be filed

***** **SCHOOL AND CLASS ATTENDANCE** *****

Board Policy 5200

- A. **Absences from School**
POLICY: Students enrolled at GHS are expected to be in compliance with Wisconsin statutes that stipulate students are to be in school every day that school is in session.
- B. **Definition of Wisconsin Statute:**
 1. **Compulsory Attendance**
Unless a student is excused or has graduated from high school, a parent/guardian is required by Wisconsin Law (Wisconsin Statutes 118.15 and 118.16) to compel regular school attendance between the age of 6 and the semester in which the student turns 18.

2. Exemption from School/Classes

A student not in proper physical or mental condition to attend school or specific courses may be excused upon presentation of a certificate from a licensed physician and a letter of request for exemption from the child's parent/guardian.

C. Attendance Policy Copies:

Copies of the Germantown School District attendance policies are available upon request or via the Germantown Schools website: Board Policy #5200.

D. Attendance Definitions:

Up to three periods absent is marked as one half-day absent. Four or more periods absent equals a full day of absence.

1. Absence from School

Regular attendance at school is necessary if a student is to achieve success in the learning process.

If parents wish their child to be absent, they must assume full responsibility for his/her activities. Requests are to be registered in advance with the principal/designee and must conform to Wisconsin Statutes.

A pupil absent from school shall **present a written statement with valid signature** from the parent/guardian stating the reason and the time period covered for the absence before the pupil shall be permitted to return to class. *Emailed statements from parents are not permitted.* Pupils absent for reasons other than those identified as excused by the Board of Education shall be considered unexcused or truant.

2. Excused Absences

A child is excused from regular school attendance if:

- a. The child is temporarily not in proper physical or mental condition to attend a school program.
- b. The child has his/her parent's or guardian's permission to be absent from school to obtain religious instruction under the "released time" statute.
- c. The child is excused by his/her parent/guardian before the absence for any or no reason. These absences are in addition to any absences that the School Board authorized the school attendance officer to excuse. A child may not be excused under this provision of state law for more than **10 days in a school year**. The School Board must require a child excused under this exemption to complete any course work missed.
- d. The child is participating in a religious holiday observance.

- e. The child is participating in a program or curriculum modification approved by the School Board.
- f. The child began a program leading to a high school equivalency diploma in a facility, secured child caring institution, secure detention facility or juvenile portion of a county officer or designee. Requests for waivers will be addressed by building administrators on a case by case basis.

When anticipating an excused absence of three days or more, parents may request homework for their students. A homework request should be made to the school counseling department. A minimum of one day's lead time will be required for the homework to be collected from the teaching staff.

3. Unexcused Absences

Unexcused absences are those absences not approved by School Board policy. An absence is considered unexcused when it deviates from what has been established as a permissible absence. Full credit for academic make-up work may not be granted when an absence is unexcused. In accordance with state law, students will be allowed to take unit, quarter, or semester exams even if the absence was determined to be unexcused.

Examples of absences that are NOT excused:

- a. Shopping
- b. Preparation for co-curricular activities, i.e. prom, athletic events, co-curricular performances, and the like.
- c. "Skip days"
- d. Sporting events, i.e. baseball games, basketball games
- e. Hair appointments, driving lessons
- f. Concerts
- g. Picnics
- h. Personal reasons: hunting, skiing, job interview, etc.
- i. Vehicle issues
- j. Unauthorized sit-ins or walk-outs, which may result in suspension

The school is responsible for students, so their whereabouts must be known at all times during the school day. Frequent absences can seriously damage a student's academic standing; therefore, the district enforces a strong "no-cut" policy for class attendance.

4. Truancy

"Truancy" means any absence of part or all of one or more school days during which the school has NOT been notified of the legal cause of such absence by the parent/guardian of the absent student. Truancy also means intermittent attendance carried on for the purpose of defeating the intent of the compulsory attendance law. Parent/guardian notification of legal cause of absence shall be submitted in writing upon the day of return, unless the absence has received prior approval by the school attendance officer or designee.

Truancy includes scheduled class cuts, study hall cuts, partial day cuts, all day cuts, habitual tardiness, refusal to attend scheduled classes, or leaving the school building without permission. The penalty for truancy will be detention, in-school suspension, or out-of-school suspension depending on the length and frequency of the truancy. This could also lead to police action including citation.

5. Tardiness to School and Class

The school recognizes that certain unavoidable issues may occur in the morning causing tardiness to first period classes. With this in mind, **students are granted three tardies to school per semester without penalty to cover extenuating circumstances.** Four or more tardies to first period classes will result detentions, suspension, police action, and/or revocation of parking privileges. Students who do not have parking privileges may lose that opportunity in the future.

In addition, the school believes that arriving to each class on time is important. For periods 2-7, the instructor is responsible for an oral definition of what constitutes tardiness to his or her class. The instructor is responsible for addressing tardiness during periods 2-7 and has the authorization to detain students after school for tardy violations. Detentions and other appropriate levels of discipline will be also implemented for repeated and/or habitual tardiness to classes other than first hour.

6. Enforcement

The building principal is designated as the school attendance officer and shall ensure that the daily attendance of each Germantown student is recorded. The school attendance officer is responsible for matters related to school attendance and truancy and shall deal with these matters in accordance with Wisconsin law and the policies of the Board of Education. The assistant principals are designated as deputy school attendance officers. Each Germantown High School teacher is required to submit daily attendance reports on all pupils under his/her charge to the attendance office.

7. Habitual Truancy

Wisconsin Statute defines a "habitual truant" as a pupil who is absent from school without an acceptable excuse for part or all of five or more days on which school is held during a school semester. For the purpose of this policy, part of a day is defined as one minute or more of unexcused absence.

The parent/guardian of a student who is a habitual truant shall be notified by first class mail when the student becomes a habitual truant. Proceedings may be brought against a parent/guardian in the form of a referral to the County Department of Social Services. Students may also be cited for habitual truancy by the Germantown Police Department.

The Attendance Office may conduct an administrative review of each student whose absences, excused or unexcused, exceed ten (10) days per year.

8. Habitual Truancy and Open Enrollment

2009 WI Act 304 provides that a nonresident school board may notify the parent of a habitual truant that the pupil may not attend the nonresident school district in the following semester or school year. "Habitual truant" means a pupil who is absent from school without an acceptable excuse for part or all of five or more school days on which school is held during a school semester.

9. Intervention

The parent/guardian of a student who is a habitual truant shall be notified by first class mail when the student initially becomes a habitual truant. Proceedings may be brought against a parent/guardian for those students identified as habitually truant.

Students who are designated habitual truants as defined above may have a school district truancy referral sent to the Germantown Police Department for review and/or appropriate action under Municipal Code 28-99. Also, the school administration may request that the Washington County District Attorney's office send a formal letter to the student's parent/guardian notifying them that they are not in compliance with the state compulsory attendance laws.

C. Attendance Procedure: If a Student is Absent for any Reason

1. All students are responsible for attending all classes and study halls each day. When it is necessary for a student of any age to be absent, he/she must have his/her parent/guardian call the school attendance office, 24 hours a day, at (262) 253-3411 on the day of the absence(s). Upon their return, the student must bring a signed note from the parent/guardian that includes the date(s) of the excused absence(s) to the attendance office before going to his/her first class. **All excused absence(s) need to be cleared within 48 hours of the absence(s). Excuse notes must be signed by the parent. Emailed notes are not accepted.**
2. Students are responsible for meeting with the instructor outside of the scheduled lesson time to receive make-up instructions. Absences may necessitate before and after school time for make-up.
3. In-school illness: Students who become ill during the school day are required to report to the attendance office. In the event that the student requests to leave, a parent, legal guardian, or designee must come in and excuse the student to ensure his/her health, safety and welfare. Periods missed will be considered unexcused if a student fails to sign out at the attendance office. Disciplinary action may be taken.
4. Pre-arranged absence: A student may ask for a pre-arranged absence form in the attendance office. This form must be signed by a

parent/guardian and presented to the assistant principal/designee two days prior to a planned absence. An admit form for return to class must be obtained from the attendance office upon return to school.

5. In recognition of the importance of classroom attendance, every attempt should be made to schedule all medical, dental, and orthodontic appointments during vacations and non-school hours. Doctor and dentist appointments should include the name of the doctor or dentist and the time of the appointment. Signed appointment cards may be used for re-entrance to school after the specified appointment.
6. Age of majority students: Students who have reached the age of majority and have a parental release form on file at the attendance office may sign out of school only if they have verified appointments. Without proper verification, all absences will be considered unexcused.
7. Participation in student activities: **In order to be eligible for student activities, a student must be in attendance at school for at least one half-day on the day of the activity. Students who miss the entire day will not be allowed to participate. If any part of the student's day is unexcused, the student will be prohibited from participating in any school activity or event.**
8. As a general rule, semester exams will be made up after return from planned absences.
9. Parents/guardians who believe that their student's attendance was erroneously marked as truant may contact the attendance office. Parents/guardians are encouraged to check Skyward Family Access *frequently* to verify student attendance records.

D. Early Release From School

Pupils may be released from school before the end of the school day only with the written approval of parent/guardian. Exceptions to this can be granted in cases such as a parent/guardian coming to school or confirmed phone requests. The school administrator may release the pupil only to the parent, legal guardian, or designee approved by the parent. All students must exit the building only at the attendance office when leaving school during the school day. Students who leave without permission are subject to disciplinary action, including suspension.

E. Completing Missed Assignments

Students with excused absences are allowed one calendar day per day of absence, plus one additional day, to make up work missed; i.e., two days of excused absence would equal three days to make up all class work. Additional arrangements may be made by teachers for students with extenuating circumstances, such as hospitalization.

DISCIPLINE CODE OF STUDENT CONDUCT Board Policy 5600

The School Board believes that successful schools have a primary focus on student learning, a commitment to high expectations, and an environment of caring and mutual help between staff and students. Such a school culture can only exist if it is based on a foundation of respect and effective discipline and a shared responsibility by all stakeholders.

Students

- ... must participate in developing for themselves the structure and control needed to promote a positive learning experience
- ... must learn to recognize relationships between their behavior and its consequences.
- ... must assume responsibility and the consequences for their actions.

Teachers

- ... are primarily instrumental in establishing the learning environments to which students respond.
- ... establish the atmosphere, the structure, and the activities that will secure for all students a positive learning experience.

Building Principals

- ... serve as the educational leader in individual school buildings.
- ... ensure that all building programs, practices and procedures establish a positive school culture and maintain a high quality learning experience for all students
- ... must participate in developing for themselves the structure and control needed to promote a positive learning experience.

Parents

- ... shall be involved in all aspects of maintaining the level of structure and control necessary for their child to learn.

K-12 CODE OF CLASSROOM CONDUCT Board Policy 5500

A primary goal of the district is to ensure effective schools that establish and maintain an academic school culture focused on teaching and learning. Effective learning can only occur in classrooms where student behavior does not interfere with the ability of the teacher to teach effectively or the ability of other students to participate in classroom learning activities.

Teachers are expected to create a positive learning climate for students in their classrooms and to maintain proper order. Students are expected to behave in the classroom in such a manner that teachers are able to effectively teach all students and fellow students are able to participate in classroom activities. Inappropriate student behavior shall not be tolerated.

A teacher may remove a student from class for demonstrating behavior that is dangerous, disruptive, unruly, or that interferes with the teacher's ability to teach effectively. Such behaviors are outlined in this Code of Classroom Conduct. The

building principal shall be accountable for the implementation of this Code in each school. It is recognized that the severity of some behaviors may warrant immediate removal from the classroom setting and may result in other disciplinary measures, i.e., behaviors that endanger the health and safety of others. However, it is expected that the classroom teacher will have implemented prior behavioral interventions for lesser offenses before a student is removed under this policy.

While this Code of Conduct does allow for removal of a student from the classroom, the Code does not preclude other disciplinary measures or any staff member from sending a student to the office for such. Disciplinary measures, including but not limited to detentions, suspension, or expulsion may be pursued or implemented by administration for conduct for which the student has been removed. Such disciplinary measures may, at times, be considered an alternative placement option. A student with a disability may be removed from class and placed in an alternative setting only to the extent authorized by state and federal laws and regulations.

The Code of Conduct is applicable to all students in all “classroom” situations of student participation under the control or direction of school authorities both in and out of school and during or outside of classroom hours. Any student who engages in behavior that is dangerous, disruptive, or unruly or that interferes with the teacher’s ability to teach effectively may be subject to removal from class and alternative placement.

CLASSROOM DISCIPLINE

It is the responsibility of the classroom teacher to have the classroom operating in an orderly manner. If all students and teachers emphasize and practice respect for one’s self, respect for others, and respect for property, classroom misconduct should be at a minimum. Evidence has shown that classroom management is most effective when the teacher handles breaches of conduct.

- Step 1** Teacher handles discipline in class
- Step 2** Teacher conferences with student before/during/after school
- Step 3** Teacher calls parent and discusses the problem (possible referral to counselor)
- Step 4** Teacher conferences with student and parent
- Step 5** Referral to assistant principal using disciplinary form (include documentation for steps 1-4). Parental contact by assistant principal either by phone or in writing.
- Step 6** Conference with teacher, student, parent, and assistant principal
- Step 7** Possible referral to district office

** Serious acts, such as fighting, being under the influence of alcohol/drugs, or threats to harm self or others, should be referred to an assistant principal immediately.

I. **STUDENT REMOVAL PROCEDURES**

- 1. A teacher may prepare a more detailed explanation within twenty four (24) hours of the student's removal. The teacher written explanation(s) shall serve as appropriate documentation of the incident and shall be kept on file.
- C. **Alternative Placement**
- 1. The building administrator or designee shall place a student who has been removed from a class by a teacher in one of the following alternative educational settings:

 - 3. All placement decisions shall be made consistent with established Board policies and in accordance with state and federal laws and regulations.
 - 4. The parent/guardian of a minor student shall be notified of a student's placement in an alternative educational setting as outlined below.

This Code recognizes that most student removals from a classroom setting will be for a short duration and may be considered as additional prior behavioral interventions. Removals for repeated rules violations may lead to consideration of a lengthier placement option.

The principal or designee may consult with other appropriate school personnel as the principal or designee deems necessary when making or evaluating placement decisions. A student's parent/guardian may also be consulted regarding student placement decisions when determined by the principal or designee to be in the best interests of the persons involved or when required by law.

D. Parent/Guardian Notification

1. The building principal or designee will attempt to notify the parent/guardian as soon as possible by phone that the student has been removed from the classroom.
2. The building principal or designee shall convey the teacher's written explanations as to reasons for removal under this policy and the administration placement decision within twenty four (24) hours of the removal.
3. The written explanation to the parent shall indicate which portion of the Conduct Code was violated.
4. If the removal from class and change in educational placement involves a student with a disability, parent/guardian notification shall be made consistent with state and federal laws and regulations.
5. If the student removed from a class is also subject to disciplinary action for the particular classroom conduct (i.e., suspension or expulsion), the students' parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Note: Both regular and special education students are subject to disciplinary procedures. The behavioral expectations and disciplinary actions listed in the Handbook of Student Rights, Responsibilities and Discipline will continue to be enforced.

II. GENERAL GUIDELINES

A. Definitions

For the purpose of the code:

1. "Classroom" is defined as any class, meeting or activity which students attend, or in which they participate while in school or out of school, and under the control or direction of school authorities. This definition includes, without limitation, regular classes, special classes, resource room session, labs, library time, counseling groups, assemblies, study halls and co-curricular activities, field experiences, either during or outside of school hours.
2. "Teacher" is defined as a person holding a license or permit issued by the state superintendent whose employment by a school district requires that he or she hold that license or permit.
3. "Time Frame" – All time lines are considered school days in this policy.

B. Out of School and/or Outside of School Hours

Teachers who remove students from the “classroom” whenever “classroom” is an activity occurring under the control or direction of school authorities which occur out of school and/or outside of school hours shall implement fully the steps outlined in Section 1 of this Code immediately upon return to school. However, in situations involving serious behavioral misconduct, supervisory staff shall make every attempt to notify the parent by phone as soon as possible.

DETENTION

Detention is a set amount of time to be made up by students who have misbehaved in class, been truant, or been tardy to school. Detention will be imposed by the administration or faculty and will be arranged at least one day prior to the beginning of the detention period to allow the student to make transportation arrangements. **It is the student's responsibility to make proper arrangements for transportation home.** Detentions missed will result in the detention being doubled, student privileges (parking, internet, library) being suspended, and/or the student being suspended from school with a parent conference requested.

** Office assigned detentions are served from 6:30-7:10 A.M. Monday through Friday and/or 2:30-3:15 P.M. Monday through Thursday in the Testing Center.*

OUT-OF-SCHOOL SUSPENSION Board Policy 5610

State statutes permit the out-of-school suspension of students (S.120.13) for up to five days for misconduct. As a general rule, students may be suspended if they defy the authority of Germantown High School staff, disrupt the orderly operation of the school, or interfere with the right of other students to learn. Suspended students may not be on any school district property, nor attend any school function, or work in any co-op or work experience program during the term of their suspension. Students are encouraged to keep up with their studies during the term of suspension. Teachers may choose not to extend full credit for work missed during the time of suspension. A suspension cannot last longer than five (5) school days unless an expulsion notice has been sent, in which case the suspension may last up to fifteen (15) school days.

To suspend a student under the statute, the school must adhere to the following procedures:

1. Advise the student, prior to the suspension, of the reason for the proposed suspension.
2. Make a determination that the student is guilty of the violation charged and that the suspension is reasonably justified.
3. Give prompt notice to the parent of the suspension and the reason for it.
4. Provide the student with an opportunity for a conference with the district administrator within five (5) consecutive school days. The district

administrator may designate someone else to conduct this conference, but it must not be someone from the suspended student's school. The purpose of the conference is to give the administrator or his or her designee an opportunity to review the facts surrounding the suspension to determine if it was fair, just, and appropriate. If it is determined that the suspension was unfair, unjust, or inappropriate, reference to the suspension must be removed from the student's records. There is no statutory right to appeal a suspension to the state Superintendent.

Suspension may be given for the following offenses:

1. Use or possession of alcohol and other controlled substances, look-alike drugs, drug paraphernalia, or other illegal substances on school premises or at any school function, home or away. This includes coming to school or school functions under the influence of controlled substances. Violations may result in expulsion from school.
2. Vandalism to school property, including school pranks.
3. Theft.
4. Harassment.
5. Fighting.
6. Use or possession of tobacco products, including "e-cigarettes."
7. Possession of any weapon.
8. Setting off fire alarms or posing a bomb threat.
9. Inappropriate use of telephone emergency 911.
10. Repeated infractions of the discipline procedures.
11. Leaving school without permission or the unauthorized taking of students from school.
12. Other acts which disregard school rules in the judgment of the administration, ***including insubordination to staff members***, are unacceptable. Police may be contacted and citations issued for any conduct considered disorderly. Students may be suspended from school for endangering the property, health, or safety of any employee or school Board member of the school district of which the pupil is enrolled.

IN-SCHOOL SUSPENSION – Students assigned to an in-school suspension will report to the office and be escorted to the in-school room for the duration of the time suspended. Students will not be allowed in the halls during passing periods. All lunches will be eaten in the in-school suspension room. Students will be required to work on class assignments during their stay in the in-school suspension room.

PRE-EXPULSION -- At the discretion of the administrative team and district administration, a pre-expulsion hearing may be utilized. The purpose of a pre-expulsion hearing is to determine whether an issue should be forwarded to the Board of Education for consideration of expulsion or addressed by means of a

pre-expulsion order, a set of conditions under which the student will be allowed to return to school.

EXPULSION– Is defined as the extended exclusion of a pupil from the school requiring School Board action.

A student may be expelled from school by the Board of Education whenever the Board finds:

- a. that if a student is guilty of repeated refusal or neglect to obey rules of the school or District; or
- b. that a student knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy school property by means of explosives; or
- c. that the student engaged in conduct while at or not at school or under or not under the supervision of a school authority that endangered the property, health or safety of others at school or under the supervision of a school authority; or
- d. that the student is at least 16 years of age and the pupil repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct does not constitute grounds for expulsion under existing law, and the School Board is satisfied that the interest of the school demands the pupil's expulsion; and
- e. that the school Board is satisfied that the interest of the school demands the student's expulsion.

If a student expulsion is recommended by the building principal or superintendent, the Board shall conduct a hearing on the matter in accordance with state law and established procedures.

GRIEVANCE PROCEDURE Board Policy 9130

The Board of Education recognizes that, as citizens, students have the right to request redress of complaints. Further, the Board believes that the inculcation of respect for lawful procedures is an important part of the educational process. Accordingly, individual and group complaints should be provided for and appropriate appeal procedures implemented. For purposes of this policy, a student complaint shall be any such that arises out of actions, procedures, and policies of this Board or its employees or the lack of such policy or procedure. The Board or its employees will hear the complaints of the students of this District provided that such complaints are made according to procedures established by the District Administrator.

PUBLIC REQUESTS, SUGGESTIONS, OR COMPLAINTS:

Any individual(s), having a legitimate interest in the staff, programs and operations of this District shall have the right to present a request, suggestion, or complaint to the District and the Board of Education. At the same time, the

Board has a right to protect the staff from inappropriate harassment. It is the intent of this policy to provide guidelines for considering and addressing public requests, suggestions, or complaints in an efficient, reasonable, and equitable manner. Requests, suggestions, or complaints made by District staff members are covered by Policy 3122 and Policy 4122.

It is the desire of the Board to address any such matters through direct, informal discussions and other means. It is only when attempts at informal resolution fail that more formal procedures shall be used. Generally, requests, suggestions, or complaints reaching the Board or Board members shall be referred to the District Administrator for consideration. Any individual presenting such a matter shall be provided with a copy of this policy.

Guidelines for Matters Regarding a Staff Member

A. First Level

Generally, if the matter concerns a professional staff member the individual(s) should discuss the matter with the staff member. The staff member shall take appropriate action within his/her authority and District administrative guidelines to deal with the matter.

Discussion with the staff member may not be appropriate in some situations including, for example, where the matter involves suspected child abuse, substance abuse, or any other serious allegation that may require investigation or inquiry by school officials prior to approaching the staff member. As appropriate, the staff member shall report the matter and whatever action may have been taken to the Principal or their immediate supervisor.

B. Second Level

If the matter has not been satisfactorily addressed at the First Level or it would be inappropriate to discuss the matter with the staff member, the individual(s) may discuss the matter with the staff member's supervisor, if applicable.

Discussions with the supervisor shall occur promptly following any discussion with the staff member.

C. Third Level

If the matter has not been satisfactorily addressed at the Second level, and the matter does not involve the District Administrator, the individual(s) may submit a written request for a conference to the District Administrator. This request should include:

1. the specific nature of the request, suggestion or complaint and a brief statement of the facts giving rise to it;
2. the respect in which it is alleged that the individual(s) (or child of a complainant) has been affected adversely;
3. the action which the individual(s) wishes taken and the reasons why it is felt that such action be taken.

The request must be submitted promptly after discussion with the staff member's supervisor. The District Administrator shall respond in writing to the individual(s) and shall advise the Board of any resolution of the matter.

D. Fourth Level

If the matter has not been satisfactorily addressed at the Third Level, or at the First Level in the case of a matter involving the District Administrator, the individual(s) may submit a written request to the Board to address the matter. Any such request must be submitted promptly after receiving the District Administrator's written response. The Board, after reviewing all material relating to the matter shall provide the individual(s) with a written response or grant a hearing, which may be held in closed session at the discretion of the Board when consistent with Wisconsin's Open Meetings law before the Board.

The individual(s) shall be advised, in writing, of the Board's decision no more than ten (10) business days following the next regular meeting. The Board's decision will be final on the matter, and it will not provide a hearing to other complainants on the same issue.

If the individual(s) contacts an individual Board member to discuss the matter, the Board member shall inform the Individual that s/he has no authority to act in his/her individual capacity and may refer the individual(s) to this guideline or the District Administrator for further assistance

Guidelines for Matters Regarding a Support Staff Member

In the case of a support staff member, the matter is to be directed, initially, to the person's supervisor, and then in subsequently higher levels as prescribed in "Guidelines for Matters Regarding a Staff Member".

***** **COMMUNICATION** *****

COMMUNICATION DEVICES

Cellular phones or other portable communication devices are **prohibited** at school by **district policy, state statute, and Germantown municipal ordinance**. On the first occurrence, the device will be confiscated by school authorities. For additional instances of possession, suspension and/or police action may result pending parent conference.

Use and Possession of Electronic Communication Devices Student use or possession of an electronic communication device, such as a cell phone, is generally prohibited during the school day, in school buildings and vehicles, and at school-sponsored activities. However, the Board of Education recognizes the value of students maintaining communication with their parents/guardians and other appropriate persons for health, safety, and educational purposes, especially before and after established school hours. Use and possession of electronic communication devices may be permitted during school hours only if use and possession is determined by the administration to be for a medical, school, educational, vocational, or other legitimate use. Such use or possession of an electronic communication device may not, in any way:

- Disrupt the educational process in the school district
- Endanger the health or safety of the student or anyone else
- Invade the rights of others at school; or
- Involve illegal or prohibited conduct of any kind.

Devices that are not determined by the administration to fit the above exceptions shall be **stored in a locker and turned off**. If a question arises as to the compliance of a student with this policy, the determination of the administration shall be final regarding this issue. In arriving at this determination, the administration shall apply the standards that are stated in this policy in order to determine whether the use of the electronic communication device by the student in question violates the standards that are stated in this policy. If an electronic communication device is confiscated, the information and contents of the device may be reviewed by school officials at their discretion. Students who violate this policy shall be subject to appropriate disciplinary measures as determined to be appropriate by the administration and/or Board. Procedurally, the process for a cell phone violation is as follows:

1st Offense: The staff member will confiscate the cell phone and turn it in to the Attendance Office, with the name of the student, as soon as possible.

Consequence(s): 1. Student will receive one (1) 45 minute detention, which will be documented on a detention form that will be sent home. **Once the detention has been served**, students may pick the phone up themselves.

2. Issue referred to SRO or other law enforcement for police action, which could include, but is not limited to a municipal citation.

2nd Offense: Confiscation by staff is the same as above.

Consequence(s): 1. Student will receive three (3) 45 minute detentions, which will be documented on a detention form that will be sent home. 2. A parent will be called and a parent will be the only one who can pick up the phone from the Attendance Office once the detentions have been served. 3. Issue referred to SRO or other law enforcement for police action, which could include, but is not limited to, a municipal citation.

3rd Offense: Confiscation by staff is the same as above.

Consequence(s): 1. Student will receive one (1) day of In-School Suspension, which will be documented on a formal disciplinary referral. 2. This will include a call to a parent and it will be mailed home. 3. Issue referred to SRO or other law enforcement will review for police action, which could include, but is not limited to a municipal citation. 4. The device will be kept until the end of the semester of the incident.

4th+ Offenses: Confiscation by staff is the same as above.

Consequences: 1. Out of school suspensions will begin. 2. The phone will be kept. 3. Issue referred to SRO or other law enforcement will for police action, which could include, but is not limited to a municipal citation. 4. Formal disciplinary referrals will be written and parents will be contacted.

This policy and its rules shall be published annually in student handbooks. Additionally, students who refuse to comply with this policy, and procedure, including, but not limited to, refusing to turn in all parts of the phone, will be disciplined for insubordination.

MESSAGES

Parents should understand that only **emergency messages** will be delivered to their students during the regular school day. Parents calling and texting their students' cell phones during the school day could lead to a student being found in violation of state law, Germantown municipal code, Board of Education policy, and school rules. Parents who wish to contact their students should call the school office.

***** GENERAL POLICIES, PROCEDURES AND RULES *****

ACADEMIC DISHONESTY/PLAGIARISM POLICY

Germantown High School expects faculty and students alike to understand that academic dishonesty/plagiarism is serious and is wrong in any form.

What is academic dishonesty? Academic dishonesty is the act of using deception or breaking the rules to gain an academic advantage. Germantown High School also deems the term "academic dishonesty" to include any intentional act that facilitates or enables another person's academic dishonesty. Examples of academic dishonesty include, but are not limited to the following:

- a. Turning in work that is not the individual's own.

- b. Copying someone's work, test, or homework answers.
- c. Intentionally allowing someone to copy your work, test, or homework answers.

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes physical, verbal, and psychological abuse. The Board will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation.

This policy applies to all activities in the District, including activities on school property including at any of the school buildings or other property used exclusively or in part, whether leased or owned by the District, for the purpose of school-related functions or events; or while traveling to or from school or to and from school-sponsored functions or events; in transporting vehicles arranged for by School District officials. The policy applies as well during activities that occur off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the supervision of school authorities, or where an employee is engaged in school business.

Bullying is deliberate or intentional behavior using word or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional well-being. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age; national origin; race; ethnicity; religion; gender; gender identity; sexual orientation; physical attributes; physical or mental ability or disability; and social, economic, or family status; however this type of bullying behavior need not be based on any of the legally protected characteristics. It includes, but is not necessarily limited to such behaviors as stalking, cyberbullying, intimidating, menacing, coercing, name-calling, taunting, making threats, and hazing.

Any student that believes s/he has been or is the victim of bullying should immediately report the situation to the building principal or assistant principal, or the District Administrator. The student may also report concerns to a teacher or counselor who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the District Administrator. Complaints against the District Administrator should be filed with the Board President. Complaints against a school board member should be filed with the District legal counsel.

Every student is encouraged to report any situation that they believe to be bullying behavior directed toward a student. Reports may be made to those identified above.

All school staff members and school officials who observe or become aware of acts of bullying are required to report these acts to the building principal or assistant principal, or the District Administrator.

Reports of bullying may be made verbally or in writing and may be made confidentially. All such reports, whether verbal or in writing, will be taken seriously and a clear account of the incident is to be documented. A written record of the report, including all pertinent details, will be made by the recipient of the report.

Students must keep all FIRE LANES open to the building during any evacuation. Students will be informed when to return to the building.

HEALTH ROOM/MEDICATION POLICY

The school health room is available for students who become ill or injured at school until parents, guardians, or designated emergency persons can be contacted. If the opening of school is delayed for a period of time, the same procedure will be followed and the school starting time will be announced. On days when

school has been closed because of inclement weather, all co-curricular activities will be canceled.

If a sudden storm or other emergency forces the schools to close before the regular dismissal time, a similar announcement will be made.

SCHOOL COUNSELING DEPARTMENT

The primary purpose of the counseling program is to help students focus on academic, personal/social and career development so they achieve success in school and are prepared to lead fulfilling lives as responsible members of society. The school counseling program is an integral part of the overall educational mission of Germantown High School in that it supports the academic achievement of all students as they prepare for the ever-changing world of the 21st century.

The foundation of Germantown High School's counseling program rests on the academic, career, and personal/social domains of the Wisconsin Comprehensive School Counseling Model and the American School Counselor Association National Standards. School counselors design, develop, implement and evaluate a comprehensive, development and systematic school-counseling program. Through a combination of classroom guidance activities, individual student planning, responsive services, and system support, the school counseling program helps students achieve optimal personal growth, acquire positive social skills and values, set appropriate career goals, and realize full academic potential to become productive, contributing members of the world

community. School counselors also collaborate with parents, students, teachers, administrators and the community to meet the needs of students.

Students at Germantown High School are assigned to one of four school counselors. Students and their families will work with this counselor for all four years of their high school career. As such, families are encouraged to get to know their son/daughter's school counselor as early as possible and utilize his or her expertise and resources throughout the high school years. Among other things, school counselors can help parent(s)/ guardian(s) with academic planning and support, post-secondary planning, the scholarship and financial aid process, crisis management, or any concerns related to students' personal or social adjustment. Counselors are available for consultation before, during, or after school to assist students and/or their parents(s)/guardian(s) with any concern.

3. Both grades will appear on the student's transcript.

DROPPING OR ADDING OR COURSES OR STUDY HALLS

Students are expected to abide by their course selection and the resulting class schedule. Schedule changes will not be granted for the following reasons:

Any student dropping a seventh class after the fourth week will receive a grade of "F" for the semester in that course. Students will not be scheduled for two study hall periods in the same semester.

Any student needing to make a change in the courses they selected **for the following year** must schedule an appointment with their school counselor prior to the end of the second semester. The request will be accommodated if, and only if, the **desired class section has seats available, written or oral parental**

permission supporting the change is provided and the schedule change is completed prior to the end of second semester. Requests for second semester changes must be made prior to December 16, 2016.

HOMEROOM

Homerooms will be called when necessary. These times are to be used for conducting school and class business. All students are to attend all homeroom periods in a timely and orderly fashion. Attendance will be taken and considered the same as a regular class attendance.

HOMEWORK POLICY

Homework is an enhancement and reinforcement of classroom learning. It either provides background information to a topic that is about to be introduced, additional practice, or application of something that was taught in the classroom. Research has shown a correlation between homework and student achievement and the development of critical skills. Homework helps to instill in students a sense of responsibility, accountability, motivation, discipline, and self-confidence. The guideline for amounts of homework for students in grades 9-12 include the daily average time of 150 minutes. Students are directly responsible for all assignments given to them and shall make every effort to complete them on time. This policy (345.3) recognizes that students who select advanced course offerings may need to exceed these homework guidelines.

HONOR ROLL/HONORABLE MENTION

Students are eligible for the school Honor Roll/Honorable Mention if they meet the following requirements:

1. Enrolled in at least six (6) subjects. (Exceptions – co-op students and students enrolled in two (2) or more advanced courses)
2. Achieve a grade point average of 3.5 or above for Honor Roll.

LIBRARY MEDIA CENTER

The GHS Library/Media Center is an area designed for quiet study, reading, listening, viewing, computing, and creating. The library opens at 6:45 A.M. and is open until 3:15 P.M. Students may use the library before or after school, on a pass from a teacher, or with a class. Students are required to have a pass from an academic teacher (not a study hall) to work in the library.

The library has a vast array of reference/research and leisure materials available. There are over 100 different magazine subscriptions, ten newspapers, many videos and other multimedia sources. Searching for materials is efficient via a wide-area network linking the six Germantown School District library-media centers together by an online catalog software package. We subscribe to several online research databases which provide full-text periodical, journal, and newspaper articles for research. Word processing, spreadsheet, and PowerPoint are all available via the Germantown school district network for all students. In addition, calculators, some art supplies, video and still cameras, DVD players and other A/V equipment can be borrowed for class projects.

Instruction in using the library and specific resources is given by the librarian in coordination with classroom teachers and on a one-on-one basis. Students are taught library skills throughout their high school experience to help them complete assignments, prepare them for college/technical school, and the world of work, and to encourage the use of libraries all of their lives. The library staff is available before, during and after school to assist students in locating and using materials. Students are encouraged to ask for help at any time.

NATIONAL HONOR SOCIETY

Membership is open to juniors and seniors who have attained a 3.50 cumulative grade point average in all subjects taken in which credit toward graduation is earned. Attaining the 3.50 cumulative grade point average allows a student to apply for membership. Further evaluation is then made by faculty members who know the student. Character, leadership, and service are the basic criteria for evaluation. A faculty membership panel determines who will be accepted into the National Honor Society and would address any disciplinary issues that violate the GHS activities code, in consequences with the NHS by-laws.

RESIDENCY REQUIREMENTS

A parent/guardian who is moving or has recently moved out of the Germantown School District and wishes the student to continue to attend in the district must contact the district office before the move to request consideration for a tuition waiver. The school district will then determine whether the student is eligible for a waiver for the remainder of that school year and/or for the following school year.

SEMESTER EXAM EXEMPTION POLICY
