

# Parents: We Need Your Help

The Kennedy Middle School population is large; at or around 900 students. This results in many students passing through the hallways at one time during given times of the day. Passing times during the A.M. and P.M. busing times and during lunch are the most difficult times. As part of KMS School Improvement efforts, the staff have worked to plan for such times, but ask for your help in talking to your child about their actions that help promote a conducive environment for learning. A few key requests for our students are that they:

- Walk
- Stay to right side in two-way traffic
- Avoid forming clusters or groups
- Limit physical contact
- Use quiet voices when near/by classrooms, especially for those that are in still in session
