Do you like exciting, romantic, adventures that keep you at the edge of your seat? If so, then New moon is for you. New moon is an addition to the movie Twilight; the sequel. The movie starts off on Bella Swans birthday. Edward Cullen aka Bella's other half and his family throw Bella a surprise party. At the party as Bella opens her unwanted gifts she gets a small paper cut. The scent of blood throws Jasper, the newest edition to the Cullen family, for a loop. He goes crazy at the scent of human blood. Trying to save Bella from disaster Edward pushes Bella out of the way, into a glass table cutting her arm. Felling so bad the Cullen's decide to move a few weeks after. Bella is heartbroken as her second family goes away. She turns to her best friend Jacob for comfort. That hole in her heart is finally closing up until Jacob suddenly gets "sick" Bella is horrible worried and when she finally gets up the nerve to go over their she finds out the horrible truth about Jacob. She jumps off a cliff trying to get that thrill that makes Edwards appear in her mind. That sure makes her appear in Edward's sister Alice's mind and somehow Edward thinks she is dead and goes to kill himself. Will Edward die? Will Bella ever see him again? Check out New moon to find out.

Their trouble may be just beginning ...
