## **New Appointment Procedure in School Counseling Office for 2017-2018**

The school counseling department has acquired a software program (Appointy) which will allow students to more easily schedule appointments with their counselor. Students can access this scheduling program from a smart phone or a computer and we will have an iPad in the office so students will still be able to schedule appointments on the spot as well. Here is the link to schedule an appointment <https://emueller.appointy.com/> Students will be prompted to create an account but will only have to do this one time. Students will need to provide their first and last name and an e-mail address.

This is a very user-friendly program, however if there are any issues accessing or utilizing the program please contact the school counseling office at (262) 502-7256.

We are excited about this program and we feel that this will be a more convenient way for students to schedule appointments with their counselors.

- Engineering Bootcamp for High School juniors and Seniors is being offered at UW-Colleges this summer. If interested stop in the school counseling office for information on registering.
- Need a Job, check the numerous job boards outside the cafeteria!
