ANNUAL ASBESTOS NOTIFICATION

Under AHERA (Asbestos Hazard Emergency Response Act), all primary and secondary schools are required to develop and implement a plan for managing all building materials which contain asbestos. Included in the AHERA Act is the requirement to annually notify all workers and building occupants (or their guardians) of asbestos-related activities.

Beginning in 1988, all buildings owned, leased, or "under control of" the Germantown School District were inspected by EPA accredited inspectors, with building material samples analyzed by an independent laboratory. Based on the inspection, the Germantown School District prepared and the state approved a comprehensive management plan for managing the asbestos.

Where the asbestos-containing materials are found, the District has in place an Operations and Maintenance program.

The District has accomplished the following compliance mandates regarding the administration of asbestos in school buildings:

- Environmental Management Consulting, Inc. was contracted to be the school's consultant for asbestos for the 2012 – 2013 school year.
- The District is continuing with the Operations and Maintenance Program as designed for the School District. This ensures that all materials with any asbestos content are kept in good condition.
- Periodic monitoring in each area containing asbestos has been completed every six months by our consultant.
- Buildings are re-inspected by an accredited inspector every three years.
- In the past year the District did not conduct any asbestos removal.

All outside contractors shall contact the lead maintenance person before commencing work. Our goal of the Asbestos Management Plan is available for review by contacting the District Office. Questions related to this plan or any other asbestos concerns should be directed to the District's Designated Person: Donald Erickson, Director of Maintenance and Custodial Services (262)253-3930.
